

INCREDIBLE EDIBLES FROM TREES

It's really a flower bud,
But we call it a spice.
We stick it in hams,
Where it tastes very nice.

This sap from a tree
Poured over thin cakes,
Tastes as sweet as can be
As soon as one wakes.

Your taste buds will spark
If you sample this bark.
With sugar on toast
It's really the most.

The name of this root
Is known only to few,
But all know its flavor
Which we taste in a brew.
